## SPEAKER BIO

## ARFON JONES

In May 2016, Arfon came face-to-face with something no human being is prepared to see - a being not of this world. The encounter shattered his understanding of reality and set him on a path he never expected to walk.

But his story reaches far beyond that single moment.

For years, Arfon has experienced powerful, unexplained events that challenge the boundaries of what we call "normal." Only later did he discover how closely his encounter echoes some of the most extraordinary UFO cases reported across Wales and the wider UK.

In this rare, deeply personal talk, Arfon shares what he witnessed, how it changed him, and the hidden patterns connecting his experience to a much larger phenomenon.

If you've ever felt that reality is stranger and more mysterious than we're taught, this is a talk you won't want to miss!
